

## **Accessories Coaxial Tube** For LS-5 Series LSCT-34-0500

- Process connection NPT 3/4"
  - Tube length 500 mm

Coaxial tube LS-5 level sensors

## **Functional principle**

The level sensors of the LS-5 series work according to the principle of the guided microwave. The so-called Time Domain Reflectometry (TDR) is used. This method emits an electromagnetic wave along the probe. When the wave reaches the medium, it is partially reflected due to the dielectric constant compared to air. The electromagnetic wave is picked up again by the sensor and the distance to the liquid can now be determined via the transit time.

Туре	LSCT-34-0500	
ID	100001879	
Remark to product	Attention: Coaxial tubes (accessories) are only avail	
	able for LS-551 level sensors with process connec-	
	tion G3/4".	
Application area	liquids	
Probe length (L)	500 mm	
Mechanical data		
Material	Stainless steel, 1.4571	
Process connection	3/4" NPT	
Included in delivery	Centering set for LSCT	
included in delivery	Centering Section ESC 1	

## **Accessories**

Type code	Ident no.		Dimension drawing
