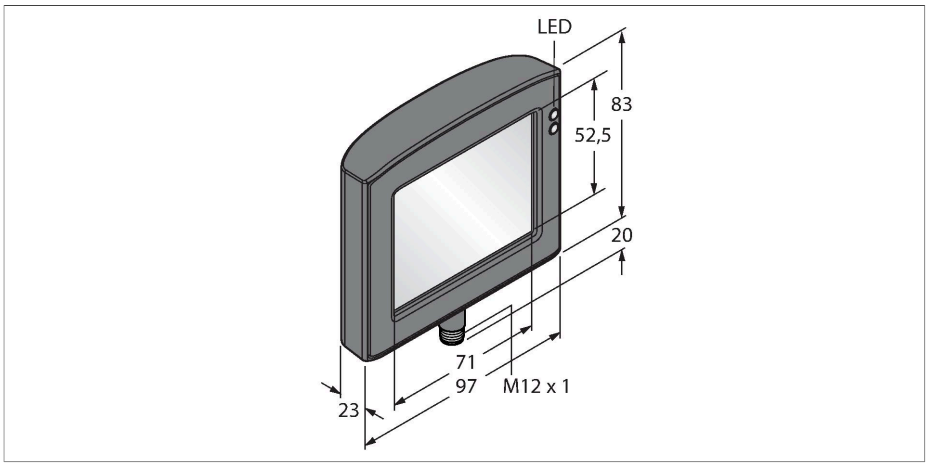
RDM35
Image Processing – Touch Display



Features

- 3.5“ screen diagonal
- Format: 4:3
- Resolution: 320 x 240 RGB

Functional principle

For applications in which vision sensors are hardly accessible to make adjustments, the remote display RD35 is the right solution. All adjustments can be made via a separate connection cable. The display is then simply removed from the docking station and can be used for communication with other remote iVu sensors; it can also be used for continuous control of hidden processes.

Technical data

Type	RDM35
ID	3029512
Power on display	LED, Green
Switching state	LED, Green
Error indication	LED, red
Dimensions	24 x 98 x 83 mm
Housing material	Metal, CuZn
Ambient temperature	0…+50 °C
Protection class	IP20

Accessories

Dimension drawing	Type	ID	
	IVURDM-QD-803	3028673	Extension cable for RDM35 remote display, M12 × 1, 8-pin, cable length: 0.91 m
