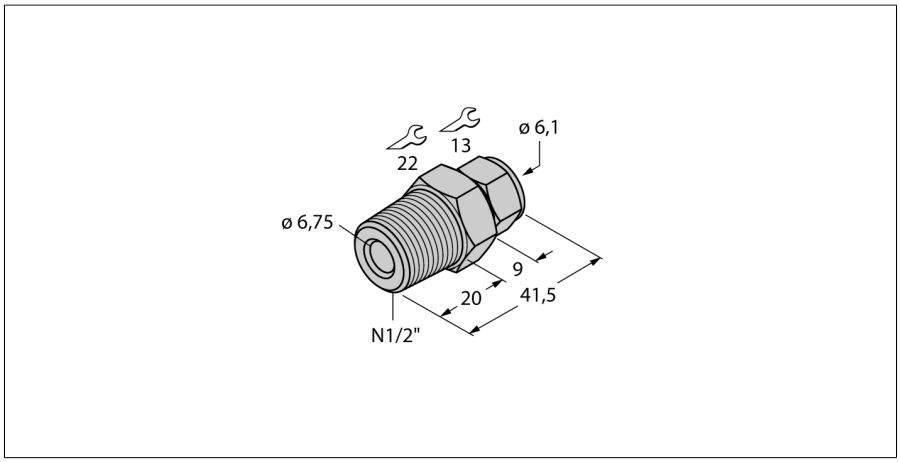
Bucşă de strângere
Pentru senzori de temperatură
CF-M-6-N1/2-A4



- Bucşe de strângere pentru montarea directă a senzorilor de temperatură
- Bucşă de strângere din metal
- Pentru senzor cu diametru de 6 mm
- Conectare la proces 1/2” NPT filet exterior

Descriere generală

Bucşele de strângere sunt destinate montării directe a senzorilor. Astfel, senzorul poate fi introdus la adâncimi variabile. Când se utilizează bucşe de strângere, sonda intră în contact direct cu mediul, modificările de temperatură putând fi astfel înregistrate imediat.
